Art Unit: 1614

Claims 108, 109, ~~111~~, 112, 113, 115-130 and 132 are presented for examination.

The remarks filed on December 21, 2004 have been received and entered.

Claims 108, 109 and 116 are rejected under 35 U.S.C. 103 as being unpatentable over WO 91/12808 for the reasons set forth on pages 2 and 3 of the office action of September 23, 2004.

Claims 112, 113, 115, 117-130 and 132 are objected to as being dependent on a rejected claim.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks argues that the prior art does not teach the conditions claimed by the instant application. The arguments are not well taken. The prior art clearly teaches the protective and lubricating effect of the claimed compound, a phospholipids during ophthalmic surgery, for intraocular lenses and for the treatment of dry eye. The claims of the instant application are drawn to the treatment of damage caused by contact lens wearing. Furthermore, applicant's specification on page 2, lines 1-5 indicates that the anterior surface of the eye is vulnerable to damage inflicted by various causes. Sjogren syndrome (dry eye) and contact lens wearing are mentioned as causes of damage to the surface of the eye. Applicant also argues that the prior art teaches away from using hyaluronic acid by submitting a published abstract that such agent delays the healing of corneal erosion. The arguments are not well taken. The prior art is directed to the use of phospholipd by itself or in combination with hyaluronic acid. The prior art is silent as to the use of hyaluronic acid by itself. Thus, for the above reasons the prior rejection sustains.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
